FAIR TREATMENT FOR OUR RACE

Head of Tuskegee Institute Interviews Railway Officials.

SUGGESTS DAY OF APPEAL.

Afro-Americans Are Urged to Take a United Stand in the Matter of Unequal Accommodations on Railroads. Replies From Passenger Officials Indicate Desire to Give a Square Deal.

By BOOKER T. WASHINGTON.
Tuskegee, Ala.—Some months ago I sent out marked copies to railway officials in every part of the south of an article written for the Century Magazine, in which I referred to the unjust treatment of colored people on railroads. In addition, a letter was written calling attention to the portion of the article marked. It might interest those of our people who are seeking to improve the bad conditions that exist on many railroads to read some of the replies from these officials to these communications. In one case, for example, the president of the railroad had a copy of the Century article placed in the hands of every officer on his road.

Later on it is my purpose to urge our people to set aside one day in the year that might be called "railroad day," upon which throughout the country, wherever conditions demand it, we can go to the officials of the railroads and speak to them about the bad conditions that exist with a view of our co-operating with these railroad officials in order to bring about better conditions.

I think the extracts from these letters indicate that the railroad officials are now in a state of mind where, in most cases, they are willing to recognize the justice of our claim for better things—in fact, some of them have already acted.

When the proper time comes we should take up with the officials concerned the matter of accommodations provided in restaurants, sitting rooms, street cars, steam cars, steamboats, etc. For the present, I am giving you these extracts for publication in order to show that there is an opportunity, if we go about it in the right way, to do away with what has been a long standing source of complaint.

Views of Several Railroad Officials.
Mr. C. J. Mills, assistant to President William Sproule of the Southern Pacific, writes: "Am very much obliged for your letter of Oct. 9 transmitting your printed article 'Is the Negro Having a Fair Chance?' and note with interest your reference to transportation facilities afforded in the south. These matters are bound to receive attention, and we hope the objections will be overcome in due course."

Mr. William J. Black, passenger manager of the Atchafalaya, Topeka and Santa Fe railway system, wrote as follows: "I am in receipt of your favor of the 8th inst., inclosing an article by yourself recently published in the Century Magazine, which I have read with interest. You will, no doubt, be pleased to learn that the Santa Fe has already provided equipment for colored travel in conformity with the plan outlined in your article."

"At the present time 75 per cent of the coaches used in Oklahoma and Texas for colored people have two compartments, one being a smoking compartment and the other for men and women, and they have separate toilet facilities for each sex. As new cars are purchased or present ones are converted, they will be of that type, and we expect before long to have all of our cars for colored traffic on the same plan."

The Race Is Not Getting a Square Deal.
Mr. J. M. Parker, receiver and general manager of the Arkansas, Louisiana and Gulf Railway company, says: "I have your favor with inclosure, being marked copy of an article which recently appeared in the Century Magazine. I shall take pleasure in reading this article, and from glancing through it I am inclined to think that the statement that the Negro is not getting a square deal in the way of transportation facilities is well founded."

Mr. W. Coughlin, general superintendent of the Missouri, Oklahoma and Gulf Railway company, wrote: "I have carefully read the article to which you have called special attention and in connection therewith wish to say that while, no doubt, there is ground for complaint at times, am inclined to the opinion that, as a whole, the situation alluded to is improving. In fact, accommodations for white and colored passengers on our motor trains are identical."

"On other trains there is not much difference except in emergency cases, where it becomes necessary to use temporary equipment that was not intended for passenger trains, but such cars as are used for the handling of both white and colored passengers, as well

as employees on freight trains. I assure you that our company appreciates the patronage of the colored people and that it is our desire to do what we can consistently for their comfort while traveling on our road."

Will Confer With Other Officials.
Mr. W. R. Biddle, receiver and chief traffic officer of the St. Louis and San Francisco railroad, writes: "I have read yours of Oct. 10 and the pamphlet inclosed with a great deal of interest. I am quite sure that there is a disposition on the part of the carriers to do anything that they properly can to improve the conditions of the colored race. The conditions under which the carriers are operating at this time are in many respects so burdensome as to leave very little opportunity for the adoption of any philanthropic movements. I shall be very glad, however, to discuss this subject with the executive officers of other lines as opportunity offers."

Mr. B. F. Bush, president of the Missouri Pacific Railway company, states: "The conditions cited in the article are not applicable to the Missouri Pacific. It is a fact that separate cars are maintained on the St. Louis, Iron Mountain and Southern for the Negroes, but my information is that they are cleanly kept and adequate to meet all demands. However, I thank you for bringing the matter to my attention."

Mr. N. M. Leach, traffic manager of the Texas and Pacific Railway company, writes: "In recent times the Texas and Pacific railway has made some improvement in the service afforded our colored patrons, and we are making an effort to further improve this service. We have received a number of expressions of appreciation from our colored patrons in Louisiana and Texas. I have read all of your article with a great deal of interest."

Statement of Sunset-Central Lines.
W. G. Van Vleck, writing for the president, W. B. Scott, of the Sunset-Central lines, says: "The matters referred to in your letter of Oct. 10 have been given very careful consideration by these lines. A few months ago we installed in our Sunset express all steel equipment, and precisely the same character of car is used for colored as well as white passengers. Later on we did the same thing with Nos. 7 and 8 and still later Nos. 11 and 12. These cars are all steel and all of the same kind. On the Central lines north of Houston trains 15, 16, 17 and 18 and on H. E. and W. T. trains 1 and 2 are similarly equipped. Local trains will be taken care of as fast as more equipment of this kind is available."

George H. Taylor, vice president of the International and Great Northern Railway company, writes as follows: "I have your letter of the 11th inst. addressed to Frank J. Gould, inclosing copy of your article recently printed in the Century Magazine entitled 'The Greatest Source of Dissatisfaction to the Negro in the South'—namely, railway travel conditions. I have forwarded your letter and its inclosures to Mr. Gould in France."

J. E. Franklin, president of the San Antonio, Uvalde and Gulf railroad, replies as follows: "I think you are entirely right in what you say in the pamphlet you inclose me. So far as this railroad is concerned, we are in a section of Texas where there is not much Negro travel, but we are giving the Negroes just as good accommodations as we are giving to the whites."

Appreciate Patronage of Our Race.
J. C. Halle, general passenger agent of the Central of Georgia Railway company, writes: "Yours of recent date, with marked copy of an article which recently appeared in the Century Magazine, has been duly received. The same will be given consideration, and I hope to write you further later. The management of this company appreciates the colored travel, and we desire to handle it satisfactorily."

A. A. Matthews, superintendent of the Missouri, Kansas and Texas Railway system, says: "I have read with interest your article entitled 'Is the Negro Having a Fair Chance?' which you inclose with your letter of Oct. 9. The subject of better accommodation for Negro passengers is one that is receiving much thought by the railroads of the south, and I think, as our lines are improved and better coaches are used, that the Negro will share in the benefit. As for the Texas Central, except for a short distance, we very seldom handle Negro passengers, but when we do their compartment in our coaches is upholstered the same and receives the same care as the part provided for white passengers."

C. B. Rhodes, general passenger agent of the Georgia Southern and Florida Railway company, replies as follows: "I wish to acknowledge receipt of your letter of the 13th inst., inclosing marked copy of an article of yours which was recently printed in the Century Magazine, for which please accept my thanks."

Rev. J. H. Travis of Orange, N. J., Dies.
The Rev. John H. Travis, who died in the Orange Memorial hospital, Orange, N. J., Sunday, March 1, was one of the most prominent Baptist ministers in New Jersey. At the time of his death he had been pastor of the Calvary Baptist church in East Orange for the past twenty-seven years. Death was due to appendicitis, an operation for that disease having been performed on Friday, Feb. 27.

BIG CELEBRATION AT WILBERFORCE

Founders' Day at Noted College Duly Observed.

BISHOP SHAFFER PRESIDES.

Event Marked the Fiftieth Anniversary of the Ownership and Management of the Institution by the A. M. E. Church—Girls' Dormitory Named For One of School's Liberal Donors.

Wilberforce, O.—Founders' day exercises at Wilberforce university the last week in February marked the celebration of the fiftieth anniversary of the ownership and management of the institution by the African Methodist Episcopal church. It was an event which will long be remembered by the faculty and students.

Bishop C. T. Shaffer, D. D., of Chicago, chairman of the university trustee board and presiding bishop of the third episcopal district, in which the institution is located, was one of the

PRESIDENT SCARBOROUGH.

leading spirits in the celebration. He presided and in the opening made an able address on higher education.

Addresses were also made by Professor H. E. Archer of Selma, Ala., president of Payne university; Bishop Joshua A. Jones, Dr. Thomas H. Jackson, Bishop B. F. Lee, Miss Hallie Q. Brown, Charles Stewart, Secretary Horace Talbert and Professor W. S. Scarborough. Bishops H. M. Turner and Evans Tyree were unable to be present.

Bishop Shaffer in his opening address told of the establishment of the university, the purchase of the property by Bishop Payne from the Cincinnati conference of the Methodist Episcopal church and how a Mrs. Shorter had given the first \$100, Bishop Payne having only faith. He also told about the work, how the school had grown year after year and of its bright future.

The address of Dr. Thomas H. Jackson was interesting for two reasons—first, because Dr. Jackson was a member of the first graduating class of the university in 1870 and is now connected with the Payne Theological seminary, and second, because he had been a professor in the college many years ago. Secretary Horace Talbert furnished figures in his address, showing the collections for fifty years, and presented property owned by the institution to the value of \$1,427,110.17. The collections were: From 1863 to 1876, \$92,784.92; to 1884, \$79,202.80; to 1895, \$92,123.56; to 1905, \$144,303.88; to 1910, \$105,352.59; to January, 1914, \$84,214.29.

Private gifts of sums of money to various interests of the school ranging from \$1 to \$1,000 were not reported in this amount collected. The dedication of the Emory hall dormitory for girls was also a feature of the celebration, and to President W. S. Scarborough belongs the credit for one of the finest and one of the best buildings on the campus. It has been erected under his administration as president.

Professor Scarborough ranks with the great scholars of the age and is a member of a number of the leading societies of the country and is also recognized by men of intellectual worth and scholarship in Europe. In this line he has been very successful in helping his race and church. It was through this connection that he was able to raise the necessary amount to erect the building after he had secured a promise from Mr. Carnegie to give \$17,500 if a like amount could be raised by Mr. Scarborough. The amount was raised. Among the men who assisted in this was President Taft, who addressed a meeting in Washington in interest of Wilberforce university.

While President Scarborough was working here for funds Miss Hallie Q. Brown was working in Europe, and when she returned home she came with a promise of \$13,000 for the building from Miss Emery. The Emory hall was appropriately dedicated by Bishop

ops C. T. Shaffer, B. F. Lee and Joshua A. Jones. Miss Brown made a strong address, and then followed the reading of a poem which had been prepared for the occasion by Mrs. B. F. Lee, wife of Bishop Lee.

There was a lively time in the financial rally of the classes. A large amount of money was raised to assist in the general work of the university.

REV. JAMES H. GORDON DIES.

Head of Orphan School Passes Away in Brooklyn After Brief Illness.

Brooklyn.—In the death of the Rev. James H. Gordon, superintendent of the Howard Colored Orphanage and Industrial school, located at King's Park, N. Y., the institution loses one of its most staunch friends and fearless workers. Superintendent Gordon died in the German hospital in this city on Tuesday, March 3, after an illness of only ten days. He had been superintendent of the orphanage for eleven years. He was a well-known Baptist preacher and had been pastor of a church in Nicetown, Pa., and the Baptist temple on West Fifty-ninth street, New York, previous to taking charge of the Howard orphanage.

The institution was located on Troy avenue at Bergen street in Brooklyn when Rev. Mr. Gordon became its superintendent. Under his able and businesslike administration the work took on new life, and it was found necessary to seek larger quarters in order to accommodate the great number of children whom the home was constantly receiving, and also room was needed for the industrial work which Rev. Mr. Gordon had put in operation. A suitable tract of land and a few buildings were purchased at King's Park, and the institution was removed to that place a few years ago.

While in charge Mr. Gordon aimed to put the Howard orphanage on a par with Tuskegee institute in Alabama, and he worked untiringly to that end, making good success.

Through Mr. Gordon's personality and activities new life was infused into the institution, and strong substantial white friends by the hundreds were won to the cause. One of the features of popularity in connection with the asylum was the introduction of an annual southern dinner, which soon became a function to which both white and colored persons looked with pride.

The Rev. Mr. Gordon was a native of Virginia, having been born in Sparksboro, that state, fifty-six years ago. He was a man of broad experience and devoted his life to uplift work among our people along many lines. He is survived by Mrs. Mary S. Gordon, his widow, and an only daughter, Miss Edith Gordon.

RICHARD B. THORNE WINS SUIT AGAINST EMPLOYERS.

Awarded \$25,000 For Injuries Received in an Elevator Accident.

New York.—The suit of Richard B. Thorne against Johnson, Adam & Gresson, a real estate firm at 684 Broadway, this city, for injuries received in an elevator accident while in the employ of the said firm last December was settled by a jury in the supreme court before Justice Philbin on Saturday, Feb. 28, by awarding the injured man the sum of \$25,000. Thorne's back was broken, and he has been lying in St. Vincent's hospital in a helpless condition since the 8th of December, 1913.

The evidence showed that Thorne was sent to the pit of an elevator shaft to replace the cables on the drum. While he was at work the elevator was brought down, crushing Thorne against the machinery and elevator pit. Thorne was taken to the hospital at once, and Mr. Almy and Henry C. Meyer, attorneys, were instructed to sue for damages.

The suit was brought under the new employers' liability law. It was the contention of the attorneys for Thorne that the engineer of the building, who under the law was Thorne's superintendent temporarily, was negligent in permitting the elevator to be operated below the first floor after he had assured Thorne that he would see that the car was not run to the basement.

Because of Thorne's helpless condition it was impossible to produce him in court. Dr. Jesse D. Hand and Dr. Robert J. McGuire, both house surgeons at St. Vincent's, testified that Thorne would be paralyzed from the waist down for life. It therefore became necessary to take the testimony of the injured man at the hospital.

The attorneys went to the hospital and Thorne's testimony was taken. This testimony was read to the jury.

Robert H. McCormick of 45 William street, New York, counsel for the defendants, endeavored to show that had not Thorne been careless he would not have been injured.

Thorne's own statement and other evidence convinced the jury that Thorne's employers were liable under the employers' liability act.

When the \$25,000 verdict was announced Mr. McCormick made a motion to set it aside and then asked for a new trial. Both these moves were denied by Justice Philbin.

DISCUSSION ON LABOR UNIONS

Speech of Judge Kavanaugh Provokes Wide Comment.

OMITS IMPORTANT FACTS.

List of Organizations in Which Afro-Americans Hold Membership Shows That an Attitude of Fairness Prevails—Colored Tradesmen Are Honorable, Says One Official.

Chicago.—Comments on the speech of Judge Marcus A. Kavanaugh, delivered before the Irish Fellowship club in this city not long ago, are still being made both in the newspapers and by individuals. The full text of the speech has been carried by a large number of papers belonging to the National Negro Press association more than once, and the race press generally has given liberal space to the various phases of the learned judge's great deliverance.

The Daily News of this city, through one of its correspondents, who is a member of our race, comments at length on this statement in the judge's speech—namely:

"Let a black man get work of equal rank among white brick masons, electricians, clerks, bookkeepers, and what happens? Every white employee will quit the job as though the place had been covered by a pestilence."

This correspondent declares that in his own experience the contrary has proved to be the case. He is sustained in some measure at least by a study of the "Negro American Artisan," made by Atlanta university, which treats rather exhaustively of the relations of Negroes with trade unions.

According to this report, some unions admit Negroes in considerable numbers. The Tunnel and Subway Contractors' International union of New York city, for example, reported about 200 Negro members and added, "In our trade they are as good as there are in the business." The tobacco workers reported 400 or 500 members, a decrease, however, from the 1,500 they had in 1900. The United Mine Workers of America reported 25,000 colored members, while Negro members predominated in the largest local organization of the union. The secretary of the organization described them as "intelligent, honorable, progressive and good workmen."

Fifty Negro members were enrolled in the Brotherhood of Railroad Freight Handlers, while the Hod Carriers and Building Laborers' union included about 1,000 Negro members. Several hundred were reported as members of the Bricklayers, Masons and Plasterers' union, the constitution of which provides for a fine for discrimination against workers on account of their color.

From the secretary of the Amalgamated Society of Carpenters and Joiners came this reply to the request for information: "Our constitution does not discriminate against Negro membership, although to the best of my knowledge, so far as the United States is concerned, they are a very rare exception, probably owing to the fact that we have but very few locals established in the south. I have never heard any uncomplimentary remarks made against any Negro that has been admitted into our organization."

The secretary of the International Typographical union has this to say: "Competent persons of both races have always been eligible to membership in our organization. In some of our southern unions there are objections to the admission of Negroes. This is a natural condition which time will probably eliminate." An enlightened position was taken by the Molders' union. The editor of the International Molders' Journal wrote, "The International Molders' Union of North America, now in its fifty-third year of existence, has never in its laws discriminated against the Negro molders." He explained that some difficulty had been experienced in local unions in the south, though "here and there, in the east, north, central west and Pacific coast, Negroes have been taken into membership and placed on an equality with the other members."

In the summary of the report relating to conditions in Illinois the Chicago Federation of Labor is recorded as replying that "we have one local union comprising all Negro members—the Asphalt Pavers and Helpers' union, No. 25—who are regularly affiliated with the international, which is affiliated with the American Federation of Labor. We have Negro delegates from several organizations. I know of no union affiliated with the federation that prevents Negroes from joining—at least, this office has never received any complaint from that direction. We often try to organize the Negro, but find it difficult for one reason or another; principally the employer is always getting some Negro to tell others that organized labor is not their best friend.

etc. The employer always has in mind it is to his best interest to keep the negroes unorganized."

The trade and labor council of Danville, Ill., had about 700 Negro members in the Miners' union and forty in the Brick, Tile and Terra Cotta Workers' alliance. The Springfield Federation of Labor included Negro members in local unions of miners, barbers, hodcarriers and cement workers.

CAPABLE MAN ON THE JOB.

President Wilson Shows Fairness in Reappointing Judge R. H. Terrell.

Washington.—The reappointment of Robert H. Terrell as municipal court judge in the District of Columbia by President Wilson is both an evidence of Judge Terrell's eminent fitness for the place and also of the president's willingness to recognize worth and ability in the selection of men for important official positions. Judge Terrell's career on the bench has been marked by fairness and a strict adherence to the law. He has given satisfaction in the most difficult cases upon which he has had to pass sentence.

Opposition to his confirmation by the senate has developed in some quarters by persons known to be opposed to Afro-Americans holding high federal position simply on the ground of color. It is not thought, however, that the majority of the members of the senate will vote against Judge Terrell's confirmation for any frivolous reasons or because of race or color. A better se-

lection could not have been made, and the race feels grateful to President Wilson for thus recognizing one of its members who has proved his worth as a citizen, a judge and a man of high moral standing.

The National Association for the Advancement of Colored People, with headquarters at 70 Fifth avenue, New York, has forwarded the following letter to Senator Moses E. Clapp:

Hon. Moses E. Clapp, United States Senate, Washington, D. C.:
Dear Sir—The National Association for the Advancement of Colored People has heard with apprehension the announcement that the nomination by President Wilson of Robert H. Terrell as municipal judge of the District of Columbia is to be held up indefinitely in the senate if not defeated by the action of one senator who is determined that no colored man shall hold office.

We submit that this procedure is most unfair under any circumstances, but particularly in this case when the fitness of the candidate is unquestioned and when the protesting senator holds his seat by reason of the disfranchisement of the majority of the adult male citizens of his state. It is bad enough to have race prejudice in high places of our government, but it is worse when such hatred gains voice and power through the enforced silence and helplessness of the very persons who are made to suffer.

We protest against any senator being permitted to hold up this nomination on such grounds, and we plead for an immediate consideration of this nomination on its merits. Respectfully yours,

NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF COLORED PEOPLE.

New England Baptist Sunday Schools.

The next annual meeting of the New England Baptist Sunday school will be held in the Messiah Baptist church, Bridgeport, Conn., Rev. W. M. Norbin pastor, beginning on Tuesday, June 16. The convention is composed of regular Baptist Sunday schools connected with the churches of the New England Baptist missionary convention, whose jurisdiction covers eight states and includes the District of Columbia.

Safeguarding American Citizenship.
In his annual report to Secretary Wilson of the department of labor in Washington, the Hon. R. K. Campbell, commissioner of naturalization, says the fact that 1,581 persons who applied for citizenship papers in the past year were refused because of ignorance and 522 were denied on grounds of immoral character, is a sign of the successful operation of the law.

During the year 10,891 applicants were rejected, and citizenship was granted to 82,017, the number rejected being almost 12 per cent.

Judge Markey Decides Club Cases

The decision of Judge Markey that the Dumas Club did not come under the "blind tiger" regulations gives a large measure of satisfaction to the colored citizens of the city and state. As was pointed out by the lawyers this club was just as essential as the leading white clubs and merited no special discrimination. The Elks organization, likewise should have received the same verdict, instead of a finding of guilty.

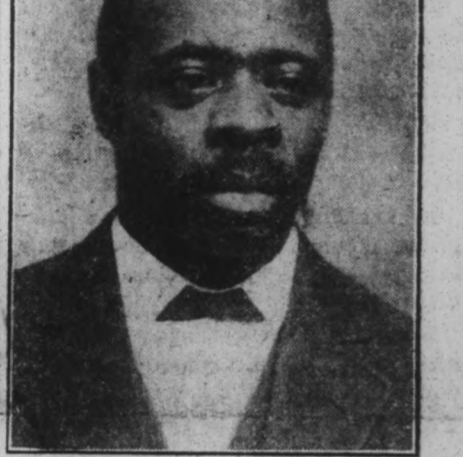

A CHURCH AT WORK.

We take this opportunity to say to the public that Calvary Baptist church is a live booth spiritually and financially in 1913. We were able to raise the amount of \$1,726.57, for which we thank the Lord for.

And as to the spiritual part of the church work, in our last meeting were added to the church twenty-one members and on the first Sunday in February we baptized seventeen in our new pool.

And as a token of respect for our work, As pastor a club in the church known as Brother Hood donated to the pastor—

Bro. John Harris \$6.25
Bro. Louis Williams 1.00
Bro. Henry Hadly50
Bro. Clarence White50
Bro. Henry Hunt50
Bro. Mathew Jones50
Bro. Allen Rodgers50
Bro. John Gilmore25
Bro. B. Barnett 1.00

The Young Men's Bible Class also donated the amount of \$4.25 which we wish to thank them all very much for, and many other valuable things given by the members of the church whose names we fail to mention at this time. And also a basket from the Missionary Society. Sister Mattie Williams, a box of calling cards; Sister Elizabeth Tompson, a nice fruit cake. May God bless them all.

The financial campaign has begun, to raise money to finish the improvement of our church. We ask all of the members to join us in this great work.

HELPFUL HINTS FOR HOUSEWIVES

Hook and Eye That Fasten
Without Sewing.

A new kind of hook and eye that has some distinct points of difference from the other types has been designed by a Pennsylvania woman. The chief feature of the new article is that except in places where there is great strain it is not necessary to sew either part fast to the clothing. Both hook and eye are equipped with safety pin devices by which they are attached to waist or skirt, and it requires a very short time to affix them. Furthermore, if the positions are not exactly right they can be easily and speedily adjusted without the bother of ripping thread and sewing it over again. If there is too much strain on the pins a few turns of thread will make the parts secure. The throat of the hook is unusually deep and protects it from being easily disengaged, while a hump after the style of many modern hooks and eyes, retains the eye in its adjusted position on the hook.

Flank Steak Stuffed.

A flank steak may be made particularly appetizing when stuffed and roasted. Remove the skin from a four pound piece of flank. Place on one-half of the meat a stuffing made from softened breadcrumbs, well seasoned with sage, minced onion, salt and pepper. Roll the other half over the first and tie or sew the edges firmly together. Coat the outside of the meat with a paste made by rubbing together one tablespoonful of flour, two of butter and one of boiling water. Place the roast in a well oiled baking dish and bake in a moderate oven until tender. Serve with stuffed onions and a rich brown sauce made from the stock in the pan.

Chocolate and Rice Meringue.

Two cupfuls of milk, one-fourth cupful of rice, one-fourth teaspoonful of salt, one tablespoonful of butter, one-third cupful of sugar, one square of melted chocolate, one-half teaspoonful of vanilla, one-half cupful of seeded raisins, two eggs. Scald the milk, add the rice and salt and cook until the rice is soft. Add the butter, sugar, melted chocolate, vanilla, raisins and the beaten yolks of the eggs. Bake in a moderate oven until firm. Cover with a meringue made of the whites of two eggs, beaten stiff and sweetened with three tablespoonfuls of powdered sugar. Serve with whipped cream.

Scalloped Codfish.

One cupful of cooked rice, one cupful of grated cheese, one cupful of flaked and cooked codfish, one cupful of buttered crumbs. Soak the flaked codfish in cold water for two hours, place in hot water to simmer for ten minutes and drain. Arrange the rice, cheese and codfish in alternate layers in a baking dish and moisten each layer with milk or cream. Cover with buttered crumbs and place in a hot oven to heat and to brown the crumbs.

Kitchen Kinks.

A little table salt added to the starch is said to be a help in ironing. When preparing fish for a meal they will scale much more easily if they are first dipped in boiling water. A little flour sprinkled over the top of a cake will help in preventing the icing from running off. It is said that a little vinegar added to the water in which a cracked egg is to be boiled will prevent the white from boiling out.

Cornmeal Muffins.

Stir into a pint of buttermilk or clabber a pint of cornmeal, a teaspoonful of soda, one tablespoonful of lard or butter and one egg, well beaten. Put the soda in the milk, mix the butter or lard with the cornmeal, add the salt, then add the egg and the buttermilk with the soda. Bake in greased muffin pans in a hot oven.

Water Stains on Furniture.

To remove water stains from varnished furniture pour olive oil into a dish and scrape a little white wax into it. This mixture should be heated until the wax melts, then rubbed sparingly on the stains. Finally rub the surface with a soft linen rag until it is restored to brilliancy.

Removing Paint From Glass.

Take acetic acid and dilute it one-half in hot water, then apply to the paint spots on the glass while it is warm. Reheat if it gets too chilled. The hot acid will not hurt the hands, fabrics or the glass, but it must be kept from children.

To Officers and Members of Sisters of Charity Subordinate Lodges of the Jurisdiction of Indiana:

GREETINGS:
We are very thankful for the many gifts of Almighty God in His divine power in sparing our lives to see another year that we may exemplify our faith in His power to aid us in our endeavors to do the work assigned to us, and whilst sickness and death have come to some of our homes, we who are spared should offer in a humble way the thanks to God for His blessings.

In so doing, I, the State Grand President of the Sisters of Charity of Indiana, and in compliance to Art. V. ADVANCE IN EDUCATION.

High Honors Awarded to Two Public School Pupils in Brooklyn.

The splendid record which many of the high and public school pupils in Brooklyn are making in their studies is encouraging. Rosa Taylor of public school No. 3 recently completed the full course in six years. She bears the distinction of being the only pupil to finish the full course under the limited time. School No. 3 was founded 250 years ago. Marion Allen of the same school recently won the silver medal for proficiency in German. Out of 108 pupils in the class eighteen were of German descent. Thus with all the drawbacks attending the efforts of the Afro-Americans they are advancing along all lines of work and brilliant achievement. The silver medal was the highest honor given at the mid-year promotion and is the gift of the German American fund.

Several young women are taking the regular course for teachers at the Brooklyn training school and are making good records. Miss Dorothy May Scott and Miss Susie Powell have advanced far enough to serve as substitute teachers and are frequently assigned to such duty. Miss Eva Jackson completed the course in February and has been assigned to teach in Public School No. 5. Miss Jackson graduated with high honors.

Missionary Societies of Indiana, she was able to enter Payne's Theological Seminary. In June 1911, she graduated, being the first woman to receive a diploma from that institution. She is a very remarkable young woman and as such she deserves the encouragement of all. The affair promises to be interesting and instructive. The public is invited. Admission 15 cents

NOTABLES IN THE LIMELIGHT

Representative W. C. Adamson For Canal Tolls.

A toll free Panama canal for American coastwise vessels, as provided by the law of 1912, is not favored by Representative William C. Adamson of Georgia, chairman of the house interstate and foreign commerce committee. He has proposed in a resolution to congress a suspension of the existing law for free tolls to American ships for two years that the cost of operation of the Panama canal may be ascertained. During these two years American ships, coastwise and ocean freighters, would pay the same tolls as all foreign ships.

The president is given authority to pass on the relative cost of using the Panama canal and its maintenance and at the end of two years may decide whether the tolls thus collected will be more than sufficient for maintenance of cost or operation of the canal. In this event the president is to enforce the law for free canal tolls for American ships.

Explaining his resolution, Mr. Adamson said:

"If it is demonstrated that the tolls are sufficient to spare the tolls to the coastwise trade the state department will be allowed time to adjust questions, growing out of the treaty stipulations, and if the advocates of exemption are found to have been correct in their contention as to a sufficiency of revenue and the diplomatic questions are settled in their favor an executive order will then put the exemption into force."

Since he was elected to congress from Georgia eighteen years ago, William Charles Adamson has devoted his entire time to official duties. Before that time he was a lawyer and earned his schooling money on the farm and by driving a cotton wagon. He was born at Carrollton, Ga., and educated at Bowdon college, Bowdon, Ga.

Art at the Panama Fair.

Visitors to the Panama-Pacific International exposition at San Francisco in 1915 will be treated to an elaborate display of the works of old masters in painting and sculpture. It is stated that so extensive and representative a collection has never before been exhibited in the United States. John E. D. Trask, chief of the exposition department of fine arts, who has recently

JOHN E. D. TRASK.

returned from a tour of Europe, reports wonderful success in his quest for art exhibits to be shown at San Francisco.

More than 350 original paintings of the old masters from private and national galleries in Europe are promised. Many of these paintings will be shown in their original form for the first time in the United States.

John Ellingwood Donnell Trask is a native of Brooklyn, N. Y., and since 1895 has been connected with the Philadelphia Academy of Fine Arts as secretary and manager. In 1910 he was United States commissioner general at the International exposition of fine arts at Buenos Aires.

It is a common expression among church-going people of Indianapolis and throughout Indiana, that Allen Chapel has "some Sundayschool." This expression is not far wrong for it seems that it is the central meeting place for the young people on Sunday afternoons. It is the friendly welcome that Allen Chapel folk offer to these young people. "It's the smile that wins. To make anything great one must work for it. Because of this fact many of the classes are models of perfection. A glance at the lineup will always show who's who. And the Shining Lights are about a thing of the past. What a pity!

They have just closed a deal for the lot south of the church for \$200 and paid down \$100, of which amount was raised and paid by the two auxiliaries of this church, namely, the Sewing Society, whose officers are: Mrs. Blanche Turner, president; Emma Taylor, treasurer, and Louisa Reed, secretary, who paid the first \$50. The second was made by the W. F. M. Society, whose officers are: Mrs. Mary T. Hill, president; Sarah Wright, treasurer, and May E. Hill, secretary, who paid the second \$50, making in all \$100. We expect to clear the church of all improvement indebtedness by June 1, and give God the praise for his wonderful blessing. Mr. Wm. FOR THE CHILDREN

An Intelligent Toad.

The United States department of agriculture has published a paper on the toad. It estimates that each saves to the farmer by eating the cutworms, which destroy the crops, about \$20 every season.

Toads eat the common housefly, which is such an annoyance to us. A toad has been seen to snap up eighty-six flies in less than ten minutes.

Toads are sometimes kept for pets, and they are not lacking in intelligence. Once a toad lived in a garden, and every day at the dinner hour he came to be fed. It happened that the dinner hour was changed, and when the toad came there was nothing for him to eat. Mr. Toad made up his mind that he would not lose his dinner twice. On the second day he came at the new hour, and after this he was as punctual as the rest of the family. No one could tell how he knew that in the future his dinner would be served two hours earlier.

Adjectives—A Game.

The game of "adjectives" is good to fill in a half hour. Select one of the party to go out of the room. Then each person chooses an adjective, which he or she will represent, while the one outside comes in and asks questions, trying to determine the adjective being enacted. For instance, the interlocutor may say, "Did you have a happy vacation?" and the person who has chosen the word "happy" pours forth a perfect torrent of words, describing his vacation. To another person the question may be, "Do you like dancing?" The reply should come in tearful accents that parties always make him so weary and life is such a bore, at which he begins to weep. Of course the word is "sad." This may continue indefinitely, and if the company is a responsive one it is very amusing. After one person has guessed several adjectives have another one go out.

Divisions.

Divide a color in two and get a loud cry and not high.

Divide to excavate in two and get beneath and a place where minerals are found.

Divide to dress in two and get a preposition and to weary.

Divide a maintenance in two and get to eat and a harbor.

Divide a trial in two and get a conjunction and a business transaction.

Divide a piece of jewelry in two and get a part of the body and work which is composed of the threads.

Answers.—Yellow—yell-low. Undermine—under-mine. Attire—at-tire. Support—sup-port. Ordeal—or-deal. Neck-lace—neck-lace.

World's Coldest Town.

Where the rivers freeze to the bottom and small trees snap off from the biting force of the cold stands the coldest inhabited city in the world—Verkhoyansk, in northeastern Siberia.

It is a place of some size, stands 150 feet above the sea level and in winter boasts of a temperature 85 degrees below zero. Its annual average temperature is 3 degrees above zero.

The Russian government owns the town and is interested in having an administrative center where clever and industrious Kokuts, fur trading Jews of Siberia, carry on their operations.—American Woman.

A Strange Family.

An Indiana farmer reports an interesting case of affection between animals. When a horse of the farmer became affected with fodder poisoning recently a family cat became the companion of the sick animal. After the horse's death the cat refused to leave the stall the horse had occupied. Soon afterward it died, and the farmer expressed the belief that its death was caused by grief for the loss of its companion.

The Paper Knife.

Perhaps the earliest mention of a paper knife on record is that in Swift's work (1755): "I said to Lord Bolingbroke that the clerks in his office used a sort of ivory knife with a blunt edge to divide a sheet of paper, which never failed to cut it even, only requiring a strong hand, whereas if they should make use of a sharp penknife the sharpness would make it often go out of the crease and disfigure the paper."

How to Grow Tall.

When the company grows weary of idle talk ask some of the boys if they wish to be instructed in the art of looking tall. It is a funny optical illusion that must be tried to be really realized or understood, yet it is very simple. It merely consists in raising the shoulders, and it is astonishing to see how the simple movement will add to the appearance of height.

Secret Places.

I think the fairies made our house. It's full of hidden nooks. That one can hide some cookies in. Or one's best story books.

Right in our garret 'neath the skies There's many a handy spot To tuck a note for fairy eyes: I'm going to write a lot.

One little chink right in the roof Is where I mailed a letter Straight to the queen of Fairyland. Could you have found a better?

I know the carrier dove flew down And took it in his bill And flew straight off to Fairyland O'er field and wood and hill.

Do I expect an answer soon? Why, yes, of course I do! But when or where or how 'twill come I know no more than you.

Hank O'Day, New Manager of
Chicago Cubs.

Photo by American Press Association.

Hank O'Day, new manager of the Chicago Cubs, says that he intends to be lenient with his charges and as a starter will allow them two or three cigarettes a day and a glass of beer now and then.

The only rule that Hank has laid down strictly is that every player must be in bed at 11 sharp. He believes that sleep and plenty of it will bring a championship to Chicago in a year or so.

Good Start For Racing.

When the racing season opens at Belmont park, New York, this spring, signaled by the Metropolitan handicapper, it is likely that as good a field as ever started in this classic will go to the post. Such are the indications from a glance over the list of nominations just made public by the Westchester Racing association. Sixty-nine horses of class have been entered for this mile contest, including so many fast performers that there is no reason to fear that the list of past winners will lose in tone by the addition of this season's victor.

Joe Livingston's Iron Mask seems likely to be top weight in the Metropolitan, but will be closely pressed by other turf stars, which proved their worth last year. Harry Payne Whitney has named six horses for the Metropolitan, five of which raced in England last year. Probably the best one of the quintet is Borrow, a six-year-old son of Hamburg—Forget and a full brother to Dreamer, the sprinter which raced so brilliantly some seasons back under the silks of Herman B. Duray.

Derby For Greyhounds.

The Waterloo cup, the English Derby for greyhounds, was won by Dilwyn, a fawn dog nominated by A. F. Pope. The runner up was Leuceryx, a black puppy nominated by Major Robert McCalmont. Both hounds were outsiders, the betting before the courses were run being 20 to 1 against Dilwyn and 50 to 1 against Leuceryx.

The coursing took place over the famous flats of the Altcar club. The winner takes the cup, valued at \$500, given by the Earl of Sefton, and a prize of \$2,500.

The event is open to sixty-four subscribers at \$125 each and is run off in five rounds.

Stahl to Remain in Bank.

Directors of the bank in which he is interested have prevailed upon Jake Stahl to give up baseball. The former leader of the Red Sox announced that he would stick to the banking business. He had been criticised by Ban Johnson for tampering with Speaker. He says his decision is not due to Johnson's attitude, but to his own judgment that his future in the bank is a better guarantee of prosperity than cavorting on the diamond.

England Appeals For Olympic Fund.

The British Olympic committee has decided to make another appeal for a fund of \$200,000 to provide effective representation at the Olympic games to be held at Berlin in 1916.

Recently the Duke of Westminster's Olympic fund committee, which aspired to raise \$500,000 through national subscription for the same purpose, resigned, having failed of its purpose.

New Player For Yankees.

On the recommendation of Fritz Malsel the Yankees have signed John Sullivan, a young second baseman, who played semipro ball around Buffalo last year. Malsel claims his protege is faster than himself. Sullivan batted .400 last season.

Catcher Wilson Quits Giants.

Arthur Wilson, second string catcher with the New York Nationals last year, has become a member of the Toronto Federal league team.

THE MISSING.
BANK TELLER

Part a Dog Played In Clearing Up a Mystery.

The country homes of the Rudds and our family adjoined, and Walter Rudd and I grew up together, bosom friends. Walter was fond of animals, I of books. Among his pets was a yellow collie, the most intelligent being of the brute creation I ever knew.

I remember especially an instance in evidence of this. One rainy day, needing exercise, I concluded to walk around the house. Dick, the dog, was with me and, seeing me getting on my hat and coat, inferred that I was going for a stroll and was rejoiced at the prospect of going with me. There were two gates to the place, and when I came to the path leading to the nearest Dick was there. I kept on. Dick looked up, surprised, but, inferring that I was intending to go out of the other gate, immediately went to it. When I passed the path leading to that gate, too, Dick's astonishment was beyond bounds. "What does the fellow mean?" he said plainly with his attitude and expression. Then, seeing that I was not leaving the grounds, he went away disappointed.

One morning I was awakened by a scratching mingled with a dog's moans at our front door. I went downstairs and found Dick. He ran down toward the gate, indicating that I was to follow him. I was not long in understanding him and after getting on some clothes went with him to a wood several miles away. He led me to a point near a brook, but when he got there looked about him surprised and disappointed, moaning piteously. Then, putting his nose to the ground, he followed a scent to the brook, where he lost it.

All this was unintelligible to me. After waiting developments and getting none I went home.

I found there a messenger from the Rudds to ask if Walter had spent the night with us, since he had not come home. At once I began to suspect that something was wrong with him, and the dog's action might be an explanation. Possibly there had been foul play at the spot where Dick had led me, and some person or persons to conceal their tracks from the dog had gone away, walking in the brook. I took Dick back to the spot and led him both up and down the stream in the hope that he would pick up the scent; but, notwithstanding a patient effort on the part of both of us, he failed.

The case of Walter Rudd was one of those mysterious disappearances that occur every day, the bulk of them never being explained. Dick, being deprived of his master, adopted me as such, I being that master's most intimate friend. I became very fond of him and never went anywhere I could take him without doing so. The first winter that I went to the city I left him behind, but the caretaker of the house wrote me that he was pining away, and I sent for him.

Walter Rudd had been teller in a bank. The cashier was Edward Griffin, a young man who a couple of years later became rich as a promoter. I knew Griffin, but had only a speaking acquaintance with him. One day while in the city walking with Dick on the street I saw Griffin approaching. Suddenly Dick gave a growl, darted forward, jumped upon Griffin, and only great effort on my part kept the dog from taking the man by the throat. I caught Dick by the collar and dragged him away, striking him with my cane at the same time. Griffin seemed very much affected by the encounter, paling and trembling like a leaf, but I was not surprised at this, as it is no light matter to have a dog suddenly spring at one's throat. I did not have an opportunity to apologize to the man, for Dick was so eager to get at him again that I was obliged to drag him away by main force, and Griffin hurried on.

Had Griffin been some rough unknown man I might have suspected that the dog's action had something to do with the mystery attending Walter Rudd's disappearance. As it was, I put it down to one of those unaccountable dislikes a dog will take to some especial person. But some months after this, when Griffin's schemes turned out burst bubbles and he no better than a common swindler, the thought came upon me that while he and Walter were in the bank together the cashier might have had some reason for getting rid of the teller.

I asked the president of the bank for information bearing on the case and was confidentially informed that during the time referred to Griffin had been carrying a large defalcation, which was discovered only after it was made good.

After consultation with the Rudd family I was authorized to employ a detective to get evidence, with a view of turning out our suspicions.

It came out that Rudd knew of Griffin's defalcation and had told Griffin that his duty required him to inform the officers of the bank. Griffin made an appointment to meet Rudd in the wood to talk the matter over. Griffin murdered the only man who knew his secret and left the body where he lay. He came back and found the dog with it. But the dog went away, and Griffin carried the body far down the stream and buried it.

Griffin, learning that a detective was working on his case, committed suicide.

Dick is still my companion, though he is very old.
